

Personal data we collect about you and for what purposes

EPFL's mandate is to promote the cultural, social and economic development of Switzerland through the training of the new generation of scientists and high-level professionals and to develop research excellence for society and its economy. EPFL processes personal data in particular within the framework of its three main academic missions which are education, research and innovation, and its support services. The legal basis for the processing of your personal data is primarily the Federal Law on Federal Institutes of Technology (hereinafter “ETH Law”).

We may process different categories of personal data depending on your relationship with us.
